

# Curriculum mapbook ICT

4<sup>th</sup>.Prim – secondTerm 2023 – 2024

## the computer preparation bookvision

The vision of the computer preparation notebook aims to raise the level of the teacher scientifically and educationally and thus raise the educational level (Technology) to be clear and contain all the capabilities that help the teacher manage the class in an appropriate atmosphere, using modern technology tools and taking into account the individual differences of the students.

## the computer preparation book mission

- ✚ Choosing and formulating various objectives (cognitive - skill - emotional), taking into account the integrity of the formulation and the individual differences of students, using modern technology methods.
- ✚ Creating an environment that stimulates learning and creativity to raise the level of students in computer science.
- ✚ Choosing the best educational, pedagogical and administrative strategies and training them on them and developing them
- ✚ Choosing scientific methods and means in teaching and using technology to support and enhance And facilitating the educational process.
- ✚ Use a presentation to explain the lesson, simplified and omprehensive, for all points of the lesson
- ✚ Using various evaluation methods, taking into account the individual differences of students and taking into account the measurement of goals
- ✚ Conclude the lesson in an appropriate and varied manner

learning outcomes	current curriculum content	Strategy	Teaching aids	calendar methods	and evidence	enrichment activities
<b>The third axis: (Digital Citizenship)</b>						
Give examples of how information is shared.	Lesson 1 The Active Explorer William Tyner	Brainstorming	Electronic board	Student's Book	Lesson preparation book	Study work on William Tyner
Deal with digital tools in an easy and secure way.		discussion –				
Feel the importance of digital tools.		– cooperative learning				
Mentions the meaning of digital citizenship.	Lesson 2 Digital Citizenship	practical training				Do a search for a Digital Citizenship
Dealing with digital tools in an ethical manner.		Dialogue and discussion				
Feel the importance of knowing digital rights and responsibilities.		Problem solving				
give examples of areas where technological tools help positively.	Lesson 3 Positive Effects of ICT	Brainstorming				Research on positive and collective effects
Deal with ways to support information technology in all fields easily.		Dialogue and discussion				
§ Mention the difference between synchronous and asynchronous connection.		Brainstorming				
Dealing with both types of communication easily and conveniently.	Lesson 4 Online Communication	Critical thinking				Work online
§ Identify the tools needed to communicate online.		practical training				

Mention the etiquette of using electronic means of communication.	Lesson 5 How to Use Electronic Communication	Dialogue and discussion	Student's Book	Students note	that the student did with his classmates	Work online
Deal with types of communication in an easy and secure way.		practical training				Conduct research on online learning environment
Feel the importance of online learning resources.		Problem solving				Make a digital research plan
Differentiate between learning environments and learning resources available online.	Lesson 6 Online Learning Environments and Resources	cooperative learning			Editorial business brochures	Conduct research on online learning environments
Deal with learning environments and resources in an easy and secure way.		Dialogue and discussion				
Feel the importance of online learning resources.		practical training				
Differentiate between reliable and unreliable online sources.	Lesson 7 Digital Research Plan	Brainstorming				
Explain how to plan for digital research.		Dialogue and discussion				
Feel the importance of Internet sources in doing research.		Critical thinking				
Recognize the appropriate method of communication in different situations.	Lesson 8 Synchronous and Asynchronous Communication	Brainstorming				
Compare synchronous and asynchronous connection.		Dialogue and discussion				
Feel the importance of use online communication methods.		practical training				
Mentions presentation elements.	General Review on First Axis	Brainstorming				
Discusses the features of the presentation.		Dialogue and discussion				
Provides information on a specific topic using PowerPoint.		cooperative learning				

## The Fourth axis: (Digital safety and security precautions))

Describe Different types of software and how to use them.	<b>Lesson 1 The Active Explorer (Gautam Shah))</b>	Brainstorming	<b>Presentation</b>	<b>Interact wi presentation</b>	<b>Oral questions</b>	Do a search for the active explorer
Discusses the role of various digital applications		Dialogue and discussion				Research on problem-solving skills
Determines Ways in which technological tools help protect wildlife.		Problem solving				
Mention Problem solving steps..	<b>Lesson 2 Problem-solving skills</b>	Practical Training				
Discuss the How to divide big problems into small problems		Dialogue and discussion				Do research and provide information
Feel the importance of using problem-solving steps.		Problem solving				
Discusses the best way to present information to others.	<b>Lesson 3 provide information</b>	Brainstorming				Conduct a search for electronic research
Explains the digital needs of simple projects.		Dialogue and discussion				
Discusses some basic design concepts.		Peer learning				Solution algorithm
Differentiates between reliable and unreliable sources.	<b>Lesson 4 digital applications</b>	Brainstorming				
Uses Program skills word – excel Easily.		Critical thinking				
Prefer Program use word – excel sharing information.		practical training				
Discusses the concept of algorithms.-	<b>Lesson 5 Algorithms</b>	Dialogue and discussion				
Explains how the search engine uses algorithms.		practical training				
Explain how to solve a problem using algorithms.		Problem solving				

Discusses the concept of programming.-	Lesson 6 : Programming principles	Peer learning	the text book	calendar solution	material activities	Practical research on Internet principles
Uses Programming as a problem-solving method.		Dialogue and discussion				
Thanks for designing software projects by himself.		practical training				
Discusses how to use Graphic programs.	Lesson 7 : graphic art	Brainstorming				Practical research on Internet principles
Adds some visualization to the presentation.		Dialogue and discussion				
Explains how to add and edit images\$ Mentions presentation elements.		Critical thinking				
Discusses the features of the presentation.	Lesson 8 Synchronous and asynchronous communication	Brainstorming			Student's Book	Complementing enrichment activities
Provides information on a specific topic using PowerPoint		Dialogue and discussion				
Discusses the concept of programming.-		practical training				
Mention the most important information he has gained in this axis.	General Review on fourth Axis	Brainstorming				
Discusses how to break down big problems into small ones.		Dialogue and discussion				
Solve some of the exercises on the axis.		Peer learning
